Premium quality InkBox filament comes in 1.75/3mm diameters, packed in 1kg (2.2lbs) spool.

Suitable for **MakerBot, Afinia, UPI, PrintrBot, MakerGear, Solidoodle, Ultimaker**, and other popular 3D printers.

Quality assurance protocol and processes are put in place at every stage of production to assure high quality filament which is manufactured to have good tolerances and a wide extruder temperature range, making it suitable for a wide range of 3D printers, enabling smoother 3D printing, and fewer extruder nozzle problems.

Property	Description
Material	PLA
Colors	12
Filament diameter	1.75/3 mm +/- 0.10mm
Roundness	1.75/3 mm +/- 0.07mm
Print temperature	190 - 210°C
Spool capacity	1 kg (2.2 lbs)

Property	Description
Material	ABS
Colors	12
Filament diameter	1.75/3 mm +/- 0.10mm
Roundness	1.75/3 mm +/- 0.07mm
Print temperature	220 - 240°C
Spool capacity	1 kg (2.2 lbs)

Reel Dimensions

Reel Diameter	190 mm (6.30")
Reel Width	80 mm (3.54")
Hub diameter	40 mm (1.38")
Hub width	75 mm (3.35")
